### Professional Summary

Dynamic IT Engineer with proven experience in full-stack web development, specializing in Python, Django, Angular, and cloud technologies. Proven ability to design scalable architectures, optimize performance, and implement robust solutions. Seeking to leverage expertise in innovative software development projects that demand efficiency and reliability.

---

### Skills

- **Programming Languages:** Python, JavaScript, TypeScript
  - **Frameworks:** Django, REST Framework, Angular
  - **Cloud Technologies:** GCP (Compute Engine, App Engine, Cloud Storage, Datastore, Cloud Functions, Pub/Sub, Cloud Run Jobs)
  - **Databases:** PostgreSQL, Redis
  - **Tools:** Jira, Git, Postman, Kibana
  - **Testing:** Develop and execute unit, integration, and end-to-end tests to ensure software quality.
  - **DevOps:** Experience with autoscaling, monitoring, and CI/CD pipelines.
  - **Web Scraping:** Proficient in data extraction and automation using Scrapy.
  - **Third-Party Integrations:** Experience integrating payment gateways and logistics APIs.
- 

### Work Experience

#### Full Stack Web Developer

Swan Softweb, Ahmedabad

August 2023 – Present

- Developed and maintained a specialized e-commerce shopping site ([www.blickers.com](http://www.blickers.com)) using GCP services and a microservices architecture, resulting in a 15% improvement in website performance.
- Contributed to the transition from a monolithic architecture to microservices, improving scalability, development speed, and fault tolerance.
- Implemented Elasticsearch to power product search functionality, enabling faceted search, search analytics, and a 10% increase in user engagement.
- Built and maintained efficient data pipelines for product data management, order processing, and customer analytics, automating key data acquisition processes using Cloud Run Jobs for scheduled data transformations and batch processing.
- Utilized GCP logging tools (including Cloud Logging) for monitoring website performance, troubleshooting issues, security auditing, and performance optimization.
- Developed and executed comprehensive test cases to ensure the reliability and functionality of the application.
- Managed client communication and project tasks effectively using Jira.

#### Software Developer(Intern)

Wappnet Systems Pvt Ltd, Ahmedabad

January 2023 – July 2023

- Designed and implemented RESTful APIs and WebSocket functionality for real-time communication in various projects.
  - Utilized Redis for efficient request handling and created database schemas to support complex data structures.
- 

### Education

#### Bachelor of Engineering (B.E.) in Information Technology

October 2020 – June 2023

Shantilal Shah Engineering College, Bhavnagar

#### Diploma Engineering in Information Technology

June 2017 – September 2020

Bhavshinhji Polytechnic Institute, Bhavnagar

#### Secondary School (10th)

February 2016 – March 2017

K K Mori School, Veraval
